I just want to you to know how much I appreciate the extraordinary attention a benefits I get from you and everyone at Innovative Concepts.

Letting me do the wireless connection and have a couple of static addresses is very cool.

Recent events reminded me of this. I've been having trouble trying to do

an upgrade to my Rebel NetWinder OfficeServer machine. This morning I called Rebel tech support. Steven asked if my OfficeServer was on the Internet. Yep! I checked to make sure the wireless was up, and gave him

the IP address, login, and password. It was really cool to hear him remotely administering my machine at home from his desk in Canada.

Thanks again!

Chris
